

23 May 1973

MEMORANDUM FOR: Director of Training

SUBJECT : Proposal for Joint Midcareer - A.I.S. Conference

1. I recommend that OTR sponsor a conference for the purpose of bringing together recent graduates of both courses and OTR instructional staff to discuss current objectives, content, thrust and importance of these two courses with the goal in mind of:

- a. continuing the two courses basically as they are now; or
- b. making substantial changes in either or both courses - but retaining their separate identities; or
- c. merging the two courses into one.

Note: The purpose of the conference would not be to design a new course or to make specific changes in existing ones, but to gain a "sense of the group" as to which way we should go.

2. Invitees would include:

- a. four students from recent Midcareer courses - preferably one from each Directorate (including one woman)
- b. four students from recent A.I.S. courses - same type
- c. OTR Staff: C/IF; current Midcareer and A.I.S. instructors; C/SIWA and SA/CD.

3. Suggested dates are Wednesday and Thursday, 11 and 12 July

1973

4. The conference could be followed up by SIWA's drafting a specific proposal (or proposals) for consideration by the Curriculum Council and yourself.

More important
is what we think
I expect we can
pretty much state
what the
line of students
will be.

AR

Something like this was
lost due circa Fall 1971.
It may be useful, especially
if the graduates involved
had taken both courses,
one of them recently.

Jack: I like the
idea of the input
but I don't believe
we can move
at so leisurely a
pace - i.e., July.
I propose that you
design an ORA
group - to call on
visit of students
of both courses now.
Further, I don't
think you can find
enough relative
info this way + each
student will probably
have the course he
took + think little
of making changes.
